REPORT OF THE BOARD OF TRUSTEES.

City Hospital, Boston, April 30, 1875.

To the Honorable City Council: —

Gentlemen: The Board of Trustees of the City Hospital, in compliance with the Ordinances, respectfully present herewith their Eleventh Annual Report.

Number of patients remaining in the Hospital, April 30, 1874		238
Admitted during the year,—		
Medical	1,968	
Surgical	1,389	
Ophthalmic	67	
		3,424
Treated during the year		3,662
Discharged	3,130	
Died	291	
		3,421
Remaining in Hospital, April 30, 1875		241

Largest number in Hospital at any time	285
Smallest number in Hospital at any time	188
Daily average number of patients	230¼
Average length of stay of each patient	days 22⅞

Number of patients treated in the out-patient department, classified according to their diseases: —

Medical diseases	2,159
Surgical "	3,500
Diseases of the Eye	1,504
" " Ear	336
" " Skin	910
" " Women	323
Total	8,732

Number of visits to the Hospital made by each class: —

Medical diseases	4,822	
Surgical "	7,368	
Diseases of the Eye	9,761	
" " Ear	1,862	
" " Skin	2,775	
" " Women	959	
		27,547

The report of the Superintendent and Resident Physician, presented herewith, contains, besides other information, a statement of the expenditures for the year, and is accompanied by the reports of the medical staff. These reports give details in regard to the number of patients treated in the Hospital and as out-patients during the year, with classified statements of their diseases and the results of treatment.

The whole number of patients in the Hospital during the year was 3,662, and they were under treatment at an average of $22\frac{7}{8}$ days each, making a total of 83,848 days, or $11,978\frac{2}{7}$ weeks. The entire cost of maintaining the Hospital during the year, including every expenditure, was at the rate of

9.89\frac{6}{10}$ per week	$118,539 16
But of the patients enumerated above,	
96 paid for 225$\frac{3}{7}$ weeks' board . .	2,851 64
Leaving, therefore, the sum of . .	$115,687 52

as the cost to the city of treating 3,566 non-paying patients for a total of 11,752$\frac{6}{7}$ weeks, which is at the rate of 9.84\frac{3}{10}$ per week. But by averaging the net cost of maintaining the Hospital for the year, among all the patients treated, we find that the average cost to the city of board for each patient was 9.41\frac{1}{2}$ per week. This cost includes all expenditures in excess of income and value of stock on hand in the store-rooms of the Hospital.

By comparison with the last report it will be seen that the daily average increase in the number of patients treated is *seven more* than in 1874. The total number treated is 227 *more* than in 1874, and 356$\frac{2}{7}$ more weeks' board has been furnished than in 1874.

During the past year a change has been made in the matter of the care of grounds, a gardener being now employed at a monthly rate of pay for the whole year. Nearly the whole expense of this department now appears in the account of salaries and labor, instead of buildings and grounds, as heretofore. It is believed that the change has been beneficial in many ways, beside the saving of from $600 to $800 of annual expenditure. A small glass house has been erected during the year for the purpose of saving and propagating plants. Built economically, heated by steam from the boilers of the Hospital, the movement is proving itself, at this early day, a most judicious one, and the Trustees are already considering the necessity of an enlargement of it. In connection with the flower bequest of Miss Mary L. Shaw, it will afford an ample opportunity not only of beautifying the grounds, but of contributing to the pleasure and comfort of the sick and convalescent, by the distribution in

the rooms and wards of plants and flowers, always so grateful to the senses. The contents of the propagating house were appraised this past spring, by competent florists and seedsmen, at the sum of $1,200.

The later yearly reports have alluded to the necessity, every year more apparent, of increased accommodations for patients. The Trustees are glad to say that decided action has been taken in the matter. The City Council of 1874 granted an appropriation of $190,000 for the enlargement or extension of the Hospital Buildings, and the larger portion of the year was occupied in arranging and perfecting plans for the purpose. This was necessarily a slow work and one requiring much careful thought, so that, when accomplished, the season was too far advanced to warrant the breaking of ground. This past spring, however, actual work began and contracts have been executed, under which it is confidently expected that the new buildings will be ready for occupancy next winter.

The new structures embrace two main buildings, for medical and surgical treatment, two one-story pavilions, and one building for culinary purposes. The past years have been fruitful in experience regarding the treatment of disease, and in the plans for the enlargement of the Hospital the Trustees have endeavored to avail themselves of it, and with the aid of the valuable suggestions of Dr. Cowles, the Superintendent, and of the gentlemen composing the medical and surgical staff of the Hospital, they trust that the new apartments will be found to embrace all the improvements and requirements desirable in a sanitary point of view. It is believed that, with the increased accommodations now proposed, the expense of treatment *per capita* may be much reduced, and the comfort, convenience and effectiveness of the working force in all departments largely increased.

The Hospital thus far must be regarded as in an incomplete condition, and the Trustees are now simply carrying out the

plans of the original founders of it, aided by such new light as experience has furnished, in regard to construction and requirements.

Mr. Hillman B. Barnes, member of the Board of Trustees from the Common Council, died on the 7th of September, 1874, and the Board placed upon their Records of September 22, 1874, appropriate resolutions, expressive of their sense of his fidelity and interest in all matters pertaining to his trust, and of their sympathy with those bereaved by his death. Mr. Asa H. Caton was elected to fill the vacancy in the Board, October 8, 1874.

Miss Eunice Cram was appointed matron of the Hospital June 19, 1874, commencing service July 1st, 1874.

Mr. S. S. Bradford resigned the position of Apothecary, February 23, 1875, and Mr. Munroe Smith was appointed to it March 1, 1875.

The Board takes great pleasure in again noticing the interest manifested in the Hospital, by the visits of kind friends; some with books and flowers, some with the consolation of religion, and all with warm hearts and ready sympathy for the sick and suffering.

Miss Mary Louisa Shaw, by will, has bequeathed the city of Boston the sum of $2,000, as a distinct fund, the income thereof to be applied, under the direction of this Board, for the purchase of flowers and fruits for the use and comfort of the patients in the Hospital.

George Goodnow, Esq., has also presented the city with $1,000, the income of which is to be devoted to the purchase of books and pamphlets for the use of patients. These gifts are thankfully noticed.

Good order, system, and discipline still prevail in the conduct of the Hospital. The good effects of these, together with whatever degree of efficiency and success may have been attained, are very largely due to the continued interest and zeal of the Superintendent of the Hospital and

of the gentlemen composing the Medical and Surgical Staff, and for this they merit the thanks not only of this Board, but of the government and people.

For the Board of Trustees,

WM. H. KENT,

President.

REPORT OF THE SUPERINTENDENT AND RESIDENT PHYSICIAN.

City Hospital, April 30, 1875.

To the Board of Trustees: —

Gentlemen: I have the honor to present herewith my Annual Report of the Hospital for the past year.

The following table shows the number of patients who have, each year, applied for admission, and been treated at the Hospital: —

	Patients Examined for Admission.	Patients Admitted.	Patients Accidentally Injured.	Number of Out-patients Treated.
From June 1, 1864, to December 31, 1864	703	475	129	371
From January 1, 1865, to December 31, 1865	1,451	1,066	242	1,143
From January 1, 1866, to December 31, 1866	1,749	1,432	345	3,324
From January 1, 1867, to December 31, 1867	1,913	1,534	328	7,015
From January 1, 1868, to December 31, 1868	2,729	2,078	417	8,794
From January 1, 1869, to April 30, 1870	4,632	3,054	482	11,721
From May 1, 1870, to April 30, 1871	3,977	2,396	525	8,899
From May 1, 1871, to April 30, 1872	4,387	2,873	565	8,947
From May 1, 1872, to April 30, 1873	4,326	3,304	660	7,526
From May 1, 1873, to April 30, 1874	4,250	3,201	804	9,272
From May 1, 1874, to April 30, 1875	4,652	3,424	756	8,732
Total	34,969	24,837	5,253	75,744

The number of patients, classified according to their diseases, who visited the Hospital for advice and treatment in the out-patient department, was as follows: —

Medical diseases, under charge of Drs. Doe and Haskins	2,159
Surgical diseases, under charge of the Visiting Surgeons	3,500
Diseases of the Eye, under charge of Drs. Williams and Wadsworth	1,504
Diseases of the Ear, under charge of Dr. Green	336
" " Skin " " Dr. Damon	910
" " Women " " Drs. Boardman and Chadwick	323
Total	8,732

Number of visits made by out-patients to the Hospital: —

Net cost of maintaining Hospital, from May 1, 1874, to April 30, 1875,		$110,809 33

Compared with the disbursements of the previous year, the net cost of running the Hospital is increased this year by the sum of $4,570.46. Against this there have been treated 227 more patients, and 356$\frac{2}{7}$ more weeks' board have been furnished. Taking the total amount of disbursements, $118,539.16, and deducting from this the excess of stock on hand at the end over that at the beginning of the year, being $2,596.80, together with the amount received from paying patients and the sale of old material, etc., there is left the sum of $112,796.44 as the total cost to the city of supporting the Hospital for the year, which is at the average cost per patient of 9.41\frac{1}{2}$ per week.

There has been a slight increase in the number of persons employed about the Hospital, as was necessary from the larger number of patients treated, and the consequent additional work. No change has been made in the general rates of pay of the employés, but the increase that appears in the amount expended for "salaries and labor" is largely due to changes made in the manner of doing the work. The making of bread, instead of purchasing it, has proved to lessen its cost; but the pay of the baker is now charged to "salaries and labor" instead of the bread account. The cost of the care of grounds, which has been nearly $2,000 per year by contract, was formerly charged to the item of "buildings and grounds." But by the employment of a gardener at a stated monthly rate of pay for the whole year, nearly the whole cost of the care of the grounds appears in the labor account, while an annual saving of from $600 to $800 is made by the change. This arrangement has also been a very satisfactory one to the Hospital in all respects, and with the new propagating house for the preservation, etc., of the plants in cold weather, we shall be able, when the plan is fully carried out, to do a good deal in the way of adorning the wards in winter with plants and flowers.

The additional accommodations for patients and other much-needed requirements that will be provided in the new

buildings that are to be constructed during the coming year, will go far towards supplying all the present needs of the Hospital in this respect.

The clergy and the friends of the Hospital, who have contributed so much to the comfort of the patients in times past, have continued their kind attentions during the last year with increased interest.

We have received many very acceptable gifts of books, pamphlets, files of magazines and illustrated papers, that have given much instruction and entertainment to the patients. The ladies of the Flower Mission, and individuals both within the city and from beyond its limits, have kindly remembered the patients with frequent gifts of flowers.

The officers of the Hospital who have been associated with me in its management are entitled to much credit for the faithful and efficient performance of their duties. Very meritorious services have been rendered by the employés in general. Few changes have been made among them during the year, and, with few exceptions, all have done well and made marked improvement.

The gentlemen of the medical staff have my sincere gratitude for their cordial co-operation in the work of the past year. The degree of success that has attended the labors of the year affords me much satisfaction; and while they have been unusually arduous, no more gratifying aid and encouragement could have been given me by the Board of Trustees than the many evidences of its continued confidence. Thanking the Board for this, I may express the hope that the well-approved principles of government and management, through which so much has already been accomplished here, will receive the support that is essential to the furtherance of the work that is now but fairly begun.

Very respectfully,

Your obedient servant,

EDWARD COWLES,

Resident Physician and Superintendent.

REPORT OF THE HOSPITAL STAFF.

Table of Medical Diseases,

Classified according to the Nomenclature of Diseases, as published by the Royal College of Physicians of London, and American Medical Association.

Surgical Diseases,

Classified according to the nomenclature adopted by the Royal College of Physicians of London, and by the American Medical Association.

DISEASES.	In Hospital, May 1, 1874.	ADMITTED.			DISCHARGED.						Remaining in Hospital, April 30, 1875.
		Males.	Females.	Total.	Well.	Relieved.	Not Relieved.	Not Treated.	Died.	Total.	
GENERAL DISEASES.											
A.											
30. Erysipelas	1	4	1	5	3	1	..	..	2	6	...
Simple	1	..	..	..	1	..	..	..	..	1	...
Phlegmonous	1	2	..	2	3	..	..	..	..	3	...
Diffuse Inflammation of Cellular Tissue	6	21	9	30	15	18	..	..	3	36	...
Gangrene	..	..	1	1	..	..	..	..	1	1	...
Scorbutus	..	1	..	1	..	1	..	..	..	1	...
B.											
43. Syphilis—Primary	..	..	1	1	..	1	..	..	..	1	...
Secondary	2	19	4	23	1	22	..	..	..	23	2
Tertiary	1	5	8	13	1	12	..	..	..	13	1
Soft Chancre	1	1	..	1	1	1	..	..	..	2	...
Bubo (hard or suppurating)	..	1	4	5	2	2	..	..	..	4	1
Hereditary Syphilis	..	1	..	1	..	1	..	..	..	1	...
Chancroids	..	1	..	1	1	..	..	..	..	1	...
44. Cancer	..	1	..	1	..	1	..	..	..	1	...
Medullary	..	1	..	1	..	1	..	..	..	1	...
Epithelial	1	4	..	4	2	3	..	..	..	5	...
Sarcoma	..	1	..	1	..	..	..	..	..	..	1
46. Lupus	..	..	1	1	..	1	..	..	..	1	...
DISEASES OF THE BRAIN AND ITS MEMBRANES.											
74. Diseases of the Cerebral Arteries—Embolism	..	1	..	1	..	..	..	..	1	1	...
Cerebral Irritation	..	1	..	1	..	1	..	..	..	1	...
DISEASES OF THE NOSE.											
213. Epistaxis	1	4	..	4	1	3	..	..	1	5	...
Carried forward	15	69	29	98	31	69	..	..	8	108	5

OUT-PATIENT DEPARTMENT.

CUTANEOUS DISEASES.

IN CHARGE OF H. F. DAMON, M. D.

To the Board of Trustees of the City Hospital: —

Gentlemen, — The following tables contain the names and numbers of the various kinds of cutaneous diseases treated in this Department during the past year, and the aggregate for the past seven years.

There has been a marked increase in the number of new patients as well as in the number of visits made during the past year to the Skin Department.

There have been 910 new cases treated during the year and 2,775 visits. During the past seven years there have been 6,873 new cases of skin disease, and 21,535 visits.

Accommodations have quite recently been made for the treatment of this class of patients between the hours of 9 and 11 A.M., on Tuesdays, Thursdays, and Saturdays.

Respectfully submitted,

HOWARD F. DAMON, M.D.

Boston City Hospital, April 30, 1875.

To the Trustees of the Boston City Hospital: —

Gentlemen,— We transmit herewith the first report of the Department for the Diseases of Women. Since its opening, treatment has been afforded to 323 patients, who have made 839 visits to the Hospital.

The constantly increasing attendance of patients compels us to express formally to you the great necessity of more commodious and more secluded accommodations. At present, the consulting room is not supplied with heat during the winter, and is a common thoroughfare; necessarily so, since the recent alterations, which make this room the only means of access to the newly finished apartments in the upper story. Worse than this, the examination room, practically, is not separated from that of the Physicians to Out-patients, so that it is not an uncommon occurrence for an examination of both male and female patients to be in progress at the same time, when, as will be obvious, the necessary simultaneous conversation must frequently be offensive to the physicians and patients alike. Moreover, this room is quite contracted in proportions, and inadequately furnished. It has already happened, and in the future it will be likely to occur more frequently, that there is need of more than one couch, in order to avoid unreasonable detention of the attending physician and patients, when a patient may be unable to depart immediately after the completion of an examination or etherization. At present, there is insufficient space for an additional couch.

In view of these facts, we respectfully call your attention to the necessity of some change for the better, which we believe the importance of the department willwarrant.

W. E. BOARDMAN, M.D.
J. R. CHADWICK, M.D.

Boston, May 1, 1875.

BEQUESTS.

BEQUESTS.

Elisha Goodnow, of Boston, by will dated July 12, 1849, makes the City of Boston residuary legatee to his estate, real and personal, for the benefit of a City Hospital. *Provided*, that one-half of the proceeds shall be applied to the establishment and perpetual maintenance of *free beds*, under the control of the government and officers of the said Hospital for the time being.

The following sums of money have been received: —

1862, June 9. From executor's balance of account at Probate Office		$623 85
1864, April 14. Proceeds of sale of estate on Cross street, containing 6,288 square feet of land	$14,907 12	
Old buildings upon same .	223 00	
1864, December 31. From City of Boston, for 225 square feet of land taken from above estate to widen Cross street . . .	523 36	
		15,653 48
1864, July 1. Interest on same from city to this date		222 67
Amount carried forward		$16,500 00

Amount brought forward, . .	$16,500 00
1867, November 30. From Boston, Hartford and Erie R. R. for 5,167 square feet land taken by New York Central R. R. from estate on Third street, South Boston . . .	3,875 25
1868, January 1. Proceeds of sale, balance of estate on Third street, South Boston, 1,516 square feet . .	758 00
	$21,133 25

1869, January 1. Of the above amount, say $20,500, is invested in city scrip, interest payable semi-annually, at six per cent. per annum, and deposited with the City Auditor, who is required to receive the interest upon the said scrip, and add the same to the moneys appropriated for the use of the Hospital.

The balance on interest in the hands of the City Treasurer, to be invested as above, is $633.25.

1868, January. The $10,000 deposited by the Executors of Mr. Goodnow, June 22, 1852, with the Massachusetts Hospital Life Insurance Company, the interest upon which is to be paid to the widow, will, upon her decease, be distributed as follows: —

$500 to the Penitent Females' Refuge.

$5,000 to City of Boston; income to be expended for the relief of sick and infirm persons.

$4,500 to be added to the fund heretofore provided for the support of free beds in the City Hospital.

Lawrence Nichols, of Boston, by will dated August 19, 1862, and recorded Suffolk Registry of Wills, vol. 160, fol. 140, bequeathed to the City of Boston, towards the support of a City Hospital, the sum of $1,000.

1863, April 29. The executor of Mr. Nichols paid the City Treasurer $1,000, less the United States tax . $937 25
The City of Boston paid interest on same . 62 75

$1,000 00

1864, July 1. The above amount, say $1,000, has been invested in City of Boston scrip, dated July 1, 1864, twenty years, with six per cent. interest, payable semi-annually, and deposited with the City Auditor, as required by ordinance.

1865, March 14. Received as Residuary Legatee, from the estate of Mr Nichols, and now in the hands of the Treasurer $530 50

1868, January 1. The trustees received the sum of two thousand dollars from Hon. Otis Norcross, as the foundation of a fund for the benefit of patients leaving the hospital poor and destitute of proper clothing. The principal sum is invested in a City of Boston interest-bearing note, to be deposited with the City Auditor, the interest of which is to be collected annually or oftener, and paid over to the President of the Board of Trustees, for the time being, of the City Hospital, to be by him expended at his discretion for the benefit and temporary assistance of those patients who are in his judgment deserving, and who are destitute of proper clothing in which to leave the hospital, and having no means of procuring it.

Balance on hand May 1, 1874 . . . $155 20
Rec'd int. July, 1874 . . . . . 60 00
" " Jan., 1875 . . . . 60 00

Amount carried forward . . . $275 20

Amount brought forward	$275 20
Expended	4 46
Balance	$270 74

1870, April 1. The Trustees received from the estate of Mr. Jonas Ball the sum of one thousand dollars for the same purpose, and under the same restrictions, as the Norcross fund.

Balance on hand, May 1, 1874	$240 00
Rec'd int. October, 1874	30 00
" " April, 1875	30 00
	$300 00

RULES

FOR

ADMISSIONS AND DISCHARGES, ETC.

RULES FOR ADMISSIONS AND DISCHARGES, ETC.

Applications for admission of patients shall be made to the Resident Physician at the Hospital, on each day of the week, Sunday excepted, between 9 and 11 A.M.

Whenever able, the patient shall apply in person. When not able to appear in person, applications may be made by a friend, and the patient shall be visited at his residence.

Any Trustee, or either of the Physicians or Surgeons in attendance, may, in case of emergency, send a patient in the first instance to the Hospital by written permit, and the Visiting Committee shall decide, as soon as may be afterwards, whether such patient shall remain.

Persons accidentally wounded, or otherwise disabled or injured, shall be received at all hours.

Permits for admission shall be subject to the approval of the Visiting Committee, and they shall have the power at any time to require the Resident Physician to report to them the names of applicants before admitting them, and may dismiss any patient whom they think improperly admitted, or change the terms of admission.

Patients discharged on the recommendation of the physicians or surgeons shall be provided with a certificate stating their condition at the time of discharge, whether cured, relieved, or not relieved, which certificate shall be signed by the Superintendent and Resident Physician.

Whenever a patient is removed from the Hospital without the consent and approval of the Superintendent and Resident Physician, a written statement to that effect shall be

required from any person assuming the responsibility of the removal.

The body of any person dying at the Hospital shall not be delivered without a written receipt from the parties taking the same.

In case of the decease of any patient, the Resident Physician shall sign a certificate to that effect, and shall furnish the City Registrar with a copy of the same. He shall also state the time and cause of death, the disposition made of the body, whether delivered to friends or buried from the Hospital. In the last case he shall mention the place of interment.

Patients may be admitted by the Trustees to the privileges of the Hospital, at such rates of board as they may from time to time determine; such board being secured by their friends, or by the authorities of the place to which they belong.

In all cases where, in the opinion of the Trustees, the circumstances of the patient will warrant it, the whole or a part of the board shall be paid. If separate apartments or articles not usually furnished at the Hospital are provided, such payment shall be made therefor as the Trustees shall deem reasonable.

HOUSE RULES.

Patients must be in their proper places in the wards during the visit of the physicians and surgeons, and always by 8 P. M., unless specially exempted by the Superintendent.

Those free patients who are able are expected to assist in nursing, and in such other services as may be reasonably required of them.

Patients shall not leave the Hospital grounds without a pass from the Superintendent, nor their respective wards without the consent of the nurse in attendance.

No patient shall purchase, or cause any member of the household to purchase for him, any article of food whatsoever, nor any other article, without the consent of the Superintendent; nor shall any officer or servant of the Hospital receive a gift or fee from a patient.

Profane or obscene language, loud talking, and incivility, are prohibited.

No patient, having acute syphilitic disease, or *mania-a potu*, shall be admitted as a charity patient, or at a lower rate than twenty-five dollars a week for the former, and fifteen dollars for the latter.

No person shall be admitted to the Hospital whose case is judged to be incurable, unless there be urgent symptoms, which, in the opinion of the Physician or Surgeon, are capable of being relieved.

Patients may be visited by clergymen of their own selection, and, where there is a wish for the performance of any particular religious rite, it shall be indulged, when practicable.

It is expected that patients will implicitly obey the rules of the Hospital. Complaints, for whatever cause, may be made to the Superintendent or Visiting Committee, and when reasonable shall be by them reported to the Trustees.

All employés must be in their respective places during their hours of duty. The doors and gates of the Hospital will be closed at 10 P.M., at which time all are expected to be quiet, and those not on duty, in their own rooms.

The use of tobacco, wine and intoxicating liquors is prohibited within the Hospital, unless prescribed by a physician.

VISITORS.

No person shall visit any part of the premises, except on business, or at such times as may be fixed for the reception of visitors, without the permission of the Superintendent, or some one of the Trustees.

On Monday, Tuesday, Thursday and Saturday of each week, from two to three o'clock, P.M., friends may be permitted to visit patients, though no patient shall receive more than one visitor on the same day. In all cases, however, the Trustees or Superintendent may exercise discretionary powers as to excluding or admitting visitors.

All visitors must leave when the bell rings at the expiration of the visiting hour.

No visitor will be permitted to take any meal in the Hospital, or pass the night therein, without permission from the Superintendent or one of the Trustees.

No visitor shall be allowed to give any article of food or drink to a patient, unless by permission of the nurse; and any article sent to the patients shall be left with the Superintendent.
